

# 5<sup>th</sup> International RAB Symposium

**GPCR**  
**LÜBECK**

**Save the Date**

5<sup>th</sup> International Symposium on  
**Regulatory Autoantibodies**

Lübeck, Germany

September 26 – 27, 2024

[www.rabsymposium.de](http://www.rabsymposium.de)

## Programme

The upcoming International Symposium will focus on regulatory autoantibodies:

- Contribution of RABs to the pathogenesis of diseases and disease manifestations.
- Diagnostic methodologies and their associated challenges.
- The potential of anti-GPCR antibodies as biomarkers for diseases and therapeutic interventions.

## Reasons to Attend

- We promote interdisciplinary conversations and strengthen research network.
- We identify new pathogenic targets, biomarkers, and intricate signalling pathways to provide a comprehensive perspective on disease pathogenesis.
- We propose and pioneer new therapeutic strategies.

## Publication Opportunity

All interested authors are encouraged to submit a one-page abstract. Each submission will undergo a peer-review process and accepted abstracts will be published in an online open-access journal, complete with a designated DOI. More information can be found at [www.rab-journal.org](http://www.rab-journal.org).

## Venue

Lübeck offers an optimal environment for networking and fostering collaborations, supporting a diverse community of researchers from both academia and industry.

## Organizing Committee

Prof. Dr. Gabriela Riemekasten  
Lübeck, Germany

Prof. Dr. Yehuda Shoenfeld  
Tel Aviv, Israel

Prof. Dr. Carmen Scheibenbogen  
Berlin, Germany

**We welcome you to celebrate 10 years  
of RAB research community with us!**
